WHAT OTHERS ARE SAYING!

"I would say that it has really made me re-evaluate my core values and how important they are in my decision making, I make day to day decisions without knowing my absolute core values which can cause inconsistency and my number one priority is establishing these. I know it will make me more effective in my role."

"I have never questioned the job I do, but Mags made me question the way I do it, however, not in a negative way, I need to totally rethink my practice, as there must be a more proactive way of doing this and perhaps more effectively. I am not one to delegate, I'm more 'if I do it, I know it's done my way' and Mags made me realise, that there will be others out there that can do it better than me! Totally inspired by Mags' experience and keen to read and learn more. The hug was also a great start to the session!"

WORKSHOP TOPICS

SILENCING THE INNER CRITIC

Have you ever felt like there's a nagging nay-sayer on your shoulder, whispering negative and critical things in your ear about your ability to achieve?

Through fun exercises, revealing anecdotes, and research, in this keynote or workshop, Mags will share how to identify your inner critic, give you methods to manage the Distractor Voice, and demonstrate a technique that can transform your negative thoughts, words, and deeds, forever. - ✦ The ability to recognise negative phrases that are holding you back from realising your full potential, such as; "I can't do that" "What if I lose everything," "I'm not good enough", etc.
- ✦ At least one tool you can implement right now in your professional and personal life that will eradicate fear and limiting beliefs – for good – freeing up your mind to listen carefully to customers and colleagues.
- ✦ Specific techniques to help you switch off your inner 'Distractor Voice.'
- ✦ A productive way to learn from mistakes and deal with negative thoughts, without continuously beating yourself up.
